## Red Balau

Perfect Blend of Durability and Natural Beauty

**Red Balau**, a high-quality hardwood from the Shorea genus, offers exceptional durability and a rich reddish-brown color that enhances any outdoor space. Known for its tight, interlocked grain, Red Balau is less prone to the striping and raised grain common in other tropical woods like Ipe and Cumaru.

It's a more affordable yet highly durable alternative, with a Janka hardness of 1,600 lbs, making it perfect for decking, siding, and other exterior applications.

# Red Balau

**TROPICAL PRO**  
SUSTAINABLE DECKING AND CLADDING

## Perfect Blend of Durability and Natural Beauty

With its strong insect and rot resistance, Red Balau is ideal for high-performance outdoor projects. Its consistent color and minimal defects reduce waste during installation, making it a practical and beautiful choice for your next project. Sourced sustainably from Indonesian forests and FSC® certified, Red Balau is an eco-friendly option that combines both quality and environmental responsibility.

### EXTREME HARDNESS & DURABILITY:

Red Balau is a dense, strong hardwood with a high Janka hardness rating, making it ideal for high-traffic outdoor areas like decks and walkways.

### VERSATILE APPLICATIONS

Red Balau's strength and aesthetic appeal make it perfect for a variety of applications, including decking, siding, and exterior trim.

### RICH, CONSISTENT COLOR

Known for its beautiful reddish-brown hue, Red Balau maintains a consistent color, enhancing the visual appeal of any outdoor project.

### MINIMAL MAINTENANCE

With its strong, stable nature, Red Balau requires minimal upkeep, allowing it to maintain its beauty and durability with little effort.

### INSECT AND ROT RESISTANCE

Naturally resistant to insects, rot, and decay, Red Balau is a durable choice for outdoor use, ensuring long-lasting protection against the elements.

### ECO-FRIENDLY AND SUSTAINABLE

Sourced from responsibly managed forests, Red Balau is FSC® certified, offering an environmentally conscious option without sacrificing quality.

### Natural Color When Installed:

Red Balau's natural color features rich reddish-brown hues with subtle variations, creating a warm, inviting look that complements any outdoor space right from installation.

### Oiled and Exposed to UV:

When oiled, Red Balau deepens in color, enhancing its natural richness and providing a smooth, lustrous finish. The oiled tone brings out the wood's intricate grain.

### Left Unoiled to Weather Naturally:

Over time, Red Balau naturally weathers to a soft, silvery-gray patina. This weathered tone offers a rustic, timeless aesthetic.
